GET READY NOW FOR THE
NEW RACING SEASON**

Available in female, male, right and left hand thread; standard and fine thread versions; with threaded bolt

AVAILABLE EX STOCK

All common MS spherical plain bearings and rod ends are in stock. Spherical plain bearings and rod ends are available in inch dimensions on request. We also offer the appropriate lock nuts, rubber protective caps, seals and reducing bushes to increase the tilt angle as accessories for all rod ends. On request, we supply special designs according to customer requirements as well as the appropriate installation tools (press-in tools, caulking tools, staking tools).
